## Services under AWS free trial account

The screenshot displays the AWS Free Tier page, which provides information about the various services available for free. The page is divided into several sections:

- Types Of Offers:** This section explains the three types of free offers available:
  - Free trials:** Short-term free trial offers start from the date you activate a particular service.
  - 12 months free:** Enjoy these offers for 12-months following your initial sign-up date to AWS.
  - Always free:** These free tier offers do not expire and are available to all AWS customers.
- Explore Top Product Categories:** This section lists the top product categories available: Compute, Database, Storage, Containers, Web & Mobile Apps, Serverless, and Machine Learning.
- Free Tier details:** This section includes a search bar for free tier products and a filter by category.

The bottom section of the screenshot shows a grid of services available for free, categorized by type:

**12-months Free:** These free tier offers are only available to new AWS customers, and are available for 12 months following your AWS sign-up date. When your 12 month free usage term expires or if your application use exceeds the tiers, you simply pay standard, pay-as-you-go service rates (see each service page for full pricing details). Restrictions apply; see offer terms for more details.

**Always Free:** These free tier offers do not automatically expire at the end of your 12 month AWS Free Tier term, but are available to both existing and new AWS customers indefinitely.

**Trials:** These free tier offers are short term trial offers that start from the time of first usage begins. Once the trial period expires you simply pay standard, pay-as-you-go service rates (see each service page for full pricing details).
